

IFRS Implementation and Actuarial Valuation Services

Insights have fraternity of accounting professionals with across the board experience in helping clients to plan and execute complex and challenging IFRS conversions, and can provide assistance with different facets of the implementation process including Actuarial Valuation services.

Introduction

3 Phased Approach to IFRS Implementation

IFRS Diagnostic

Phase 01

- Project planning and mobilization
- Gap Assessment
- IFRS gap assessment on financial statements

Accounting & Business Impact

Phase 02

- Accounting Policy determination & IFRS impact assessment
- Approval of changes by top management
- IFRS based financial statement & disclosure checklist
- Skeleton financial statement with disclosures

Implementation

Phase 03

- Assistance in preparation of IFRS based financial statements
- Reporting package review of differences between IFRS and local GAAP

Actuarial Valuation Services

We help companies by providing Actuarial Valuation Services in order to comply with IAS 19 disclosure requirements.

We are serving well known multinational companies, listed companies and Small & Medium Entites (SME) all across Saudia Arabia.
